AlphaTec® 62-401 TECHNICAL DATASHEET

Natural Rubber Latex

Print date 08-08-2019

Glove material
- Natural rubber latex (Coating material)
- Cotton Jersey (Liner material)

Possible Harmful ingredients
Sensitizers
- Natural rubber proteins
- Zinc Diethyldithiocarbamate

Only a very small number of users may be sensitised to this ingredient in the glove and hence may develop irritant and/or allergic contact reactions.

Reach Regulation 1907/2006
For more information, please consult the REACH statement on the Ansell website

Properties
- Excellent thermal properties
- Very good flexibility
- Very good wet & dry grip

EN Test Data
Liquidproofness:
Acceptable Quality Level 1.5 or EN performance level 2
Chemical permeation:
For more information on chemical permeation, please consult Ansell website

	a	b	c	d	e	f
EN388:2003	3	2	3	1		
EN388:2016	3	1	3	1	B	

Flammability:
Performance level X (test not applicable)
Contact heat resistance:
Performance level 2 Contact temperature 250°C >15s
Convective heat resistance:
Performance level X (test not applicable)
Radiant heat resistance:
Performance level X (test not applicable)
Resistance to small projections of molten metal:
Performance level X (test not applicable)
Resistance to large quantities of molten metal:
Performance level X (test not applicable)

European conformity
Gloves conform to the requirements of the European Directive 89/686/EEC and to the European standards EN 420:2003 + A1:2009 and EN388:2003, EN374:2003 micro organism, EN374:2003 chemical resistant, EN407:heat flame, EN511:cold hazard, EN388:2016, EN ISO 374-1:2016 A, EN407:heat flame. They are categorised in "Complex Design" (= Protection against mortal risks).
EC-Type Examination Certificate and EC-quality control for the final product by
Centexbel
Technologiepark 7
B-9052 Zwijnaarde
Gloves conform to the requirements of the European Regulation 1935/2004 "Materials and Articles to Come into Contact with Foodstuff" and European Regulation 2023/2006 "Good Manufacturing Practices for Materials and Articles to Come into Contact with Foodstuffs".
For more information on food compliance, please consult Ansell Food Declaration of Product Compliance.

Application - Limitations of use
Do not use against flames or temperatures < - 25°C or > 160 °C.
Do not use against oils, greases, hydrocarbons, esters and chlorinated solvents.
Do not use near moving or serrated blades
Hand (mechanical & chemical) protection.

Storage
- Keep away from sources of ozone or ignition.
  Keep out of direct sunlight; store in a cool and dry place.
