AlphaTec®
ADVANCED CHEMICAL PROTECTION

87-900

Heavyweight glove with reliable protection against a wide range of chemicals

Previously known as: Bi-Colour 87-900

Two-toned double-dipped rubber and neoprene gloves, offering superior chemical resistance

- **Heightened protection:** AlphaTec® 87-900 protective gloves' combination of latex and neoprene ensures protection against a wide range of hazardous chemicals
- **Improved durability:** Thanks to 0.68mm/27 mil thickness, these two-toned safety gloves are especially durable and robust, making them suitable for various heavy-duty applications
- **Increased comfort:** These AlphaTec® industrial gloves also feature high-quality 100% cotton flock lining, reducing the potential for skin irritation and protecting wearers in comfort
- **Enhanced grip:** Designed with a honeycomb grip pattern, these heavy-duty work gloves ensure firm, confident grip in both wet and dry conditions
- **Assured quality:** In addition, they boast an AQL of 1.5

Industries

- Automotive
- Machinery and Equipment
- Infrastructure Maintenance
- Chemical
- Automotive Aftermarket
- Oil and gas

Applications

- Maintenance of plant and machines
- Laboratory maintenance and clean up
- Janitorial use
- Chemical Handling

AlphaTec®
ADVANCED CHEMICAL PROTECTION

87-900

Heavyweight glove with reliable protection against a wide range of chemicals

Previously known as: Bi-Colour 87-900

Key Features

- Latex and neoprene blend: Heavy-duty protection from varied chemicals
- 0.68mm/27 mil thickness: For robust and durable work gloves
- 100% flock lining: Greater comfort, lesser skin irritation

Vulcanization Chemical Accelerators

- Natural rubber proteins
- Zinc Diethyldithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
